

THE COLUMBUS BOYCHOIR SCHOOL

Princeton, New Jersey

Vol. VI

April 12, 1962

No. 28

RESIDENT CHOIR sang three concerts in the East Brunswick, N.J. schools this past Tuesday. Many boys were auditioned after the concerts for camp and school. The choir boys enjoyed the "in-between concert" and "after concert" trips to the home of Gary Raphael in Spotswood, N.J. The Raphael have a farm and the boys enjoyed seeing the horses and a small colt. Mr. Raphael very generously put one of his brand new busses and a driver at the disposal of the school for this trip. The choir sang very well in each of the three schools. Solos were sung by: Nat Wordell, John Kelsall, Robert Kroschefskey Kenny Wilson, John Hanriot, and David Huggins. The duet in "The Spring Carol" by B. Britten was sung by Jim Powers and David Huggins.

THE PRINCETON PASTOR'S ASSOC. met at School on Wednesday. The local pastors had lunch with the boys. After lunch the resident choir sang several selections for the clergymen.

SEVENTH AND EIGHTH GRADE BOYS attended a concert presented by the Westminster Choir at McCarter Theater last Wednesday evening. The tickets were a gift to the School from the Westminster Choir College.

PLAYGROUND SWINGS are being constructed here at school for the boys through a generous gift from a friend of the school. We can hardly wait to get the chains up.

Tour Newsletter

DAVID CARTER - On the way to Charlottetown, P.E.I. many rivers were flooded because of all the snow melting. Bridges were washed out and roads were broken up because of the floods.

DAVID SOPER - On this tour the weather has not been so bad. The rains and flood waters have caused destruction of roads which we intended to travel. Today, Sunday, we are travelling on very rough roads.

BILL PRICE - On Friday the boys took the ferry to P.E.I. The ferry was named the "Abegweit". It was the only ferry operating because it was an icebreaker. The ferry had eight engines with propellers in the front and the back. Each propeller was fourteen feet high.

STEPHEN A. TUCKER - Crossing on the ferry from Cape Tormentine to P.E.I. was quite an experience for everybody. When we boarded the ferry we all scrambled for the main deck of the ship. The boat was actually the largest ice breaker of its kind and not a ferry.

STEPHEN BRYANT - The sharpest thing that we have done is going over to P.E.I. On the way back we had to back up and ram the ice. The wind blew so hard that you could lean on it.
