

LARRY BALDWIN - "Our first day out on the road was very exciting. Everyone was sad when we left but it is lots of fun now. All we have seen is snow, snow, and more snow, so don't feel as though you're missing some beautiful scenery. Our first day was a long ride but everyone occupied himself with something. It won't be long before we will be back again."

RICK FUNK - "The successful flight of Col. John Glenn, Jr. was followed with great excitement by the touring choir last Tuesday. The boys listened to the radio hooked up to the bus P.A. system while on the way to Marquette, Mich."

CHARLES DANNER - "Throughout the Mid western Tour, the concert choir has been plagued with very cold weather and snow. At times snow can be very beautiful, but to us it has become a nuisance. We have seen devices for removing snow that most of us had never seen before."

TOMMY FRIEDMAN - "On the eve of Feb. 20th as the boys were going to dinner they were amazed by the structures which looked like igloos, but some were too big and other too modern. We later found out from a student at Northern Michigan College that they were projects of the fraternities and sororities of the college. The largest was Jack and the Bean Stalk showing the giant lying on the ground. The span is 30 feet. They were made by first building a wooden frame and then packing snow over it and watering it."

note - we will conclude this in next week's issue of Newsletter.
